

JOB ADVERT

XR STUDIO ENGINEER FULL TIME

The XPLOR Innovation Centre is a £6m+ Backstage Academy project, partially funded by the European Regional Development Fund, and based on Production Park. The new centre will become a catalyst for change; not just for the global live events industry, but also in providing support and growth opportunities for SME's and Start-ups within the local region.

The new building will open its doors in March 2022 and will provide a blank canvas for individuals and companies to bring new novel ideas and undertake a creative development cycle to bring them to commercial realisation.

Department: XPLOR

Salary: Based on experience

Closing date for applications:
5:30pm on 30th April 2021

Interviews are expected to take place within 2 weeks of the closing date.

An application form, job description and person specification can be viewed on [our website](#).

Staff Benefits:

- Pension
- Employee Lunches Provided
- Voluntary Health Cash Plan
- Free Car Parking
- Staff development and training opportunities

No agencies.

Candidates must be eligible to work in the UK, for more information please [UK Gov's Visa Check](#).

Backstage Academy reserves the right to shorten/extend the closing date of any position where a high/low volume of applications are received.

The XR Studios Execs will be key members of the team managing the development and output of the XR Stage in the XPLOR Innovation Centre. 100% of these posts will directly contribute to the development and delivery of the Backstage Innovation Centre project, part-funded by European Regional Development Funds (ERDF).

In this role you will be directly reporting to the Development Director.

About you:

- Degree level qualification in a relevant discipline
- Capable of working independently to develop, maintain and manage the XR stage output and content, development
- Able to manage client projects and in-house research
- A good communicator able to represent XPLOR and capable and confident in external client meetings and presentations.

Why should you join?

- You will have an opportunity to make significant impact within an established business with a supportive culture, a global brand and strong reputation in the market.
- Be "at the table" when strategic decisions are being made
- The opportunity to conceive and deliver new and innovative research projects.
- Work closely with technologists and market sector leads to develop projects and initiatives in a highly collaborative, matrix environment.
- Develop, test and launch business and funding models for new project ideas to create significant impact.

All roles are effective immediately and will be based at Production Park, headquartered in the Innovation Centre from Q1 2022. They come with industry competitive packages and the opportunity to be part of writing the next chapter in entertainment technology development.
